

Automated Clearinghouse Payments (ACH)

Customs allows you to pay your duties electronically through the ACH banking system. This is a wonderful option, especially for importers whose duties are large, and those importers involved with "live" entries (entry/entry summary required simultaneously). In the latter case, the importer is allowed an additional 10 days to pay duties. There is no charge for this service, you do not have to write a check, and there is a clear, indisputable audit trail that will appeal to your chief financial officer. If you are interested in this service, please click on the "Contact Us" icon on our home page.
