

In the 23 years we have been in business, our firm has handled over 150,000 transactions covering commodities ranging from aircraft to zippers. Our more than 300 customers include large, Fortune 500 firms, many medium size firms, and several sole proprietors. We cater especially to those importers who have complicated imports, special needs, and/or require premium service.

We began operations in 1986, and now have a staff of ten including four licensed brokers, who also are Certified Customs Specialists (CCS). In 1988, we implemented a formal quality program, which has been instrumental in making us one of the top brokers in Atlanta. We are very proud of our low error rate with Customs, which is especially noteworthy since our small firm handles about 20 percent of the anti-dumping entries filed in Atlanta. In 2003, we formalized our security program and proudly became a member of the Customs and Trade Partner Against Terrorism (C-TPAT), helping to protect our nation's borders in the global war on terror.
